

Special Olympics

ETMM supports our local Special Olympics Ski Racing program by collecting and donating ski gear, ski clothing, funding, and coaching during the fall-winter for the Olympians to use for ski and snow board competition. Rick Lott has coached Special Olympian skiers and boarders for many years and several other Mogul Mashers have helped out to help make these young Olympians successful on the snow. Robert, shown below with Lisa, is one of Olympians we have supported.

You can support the local Special Olympics by talking to one of your ETMM board members about donating ski gear and clothing that is in very good condition. If you would like to get directly involved or donate to the Special Olympics please visit their website <https://www.specialolympics.org/get-involved> to find the best way you can help. Your support, no matter how small it may seem, makes a difference in the life of these Olympians and their families.
