East Tennessee Mogul Mashers Ski Club (ETMM) is an organization founded in 1977 for snow skiers and snowboarders of all ages and skill levels, as well as for those who enjoy year round recreational outdoor activities. It is ETMM's purpose to promote snow sports while making new friends across the country.

Membership

Annual membership runs from November 1st thru October 31st. Benefits of being an ETMM Ski Club Member include discounts on trips, ski equipment, apparel, and ski vacations. The cost is affordable for individuals as well as families.

Learning to Ski or Ride?

East Tennessee Mogul Mashers want you to develop your snow skills. If you have never skied or snowboarded before or are in the process of learning, ETMM members can help. Members can offer helpful tips that will ease you into winter sports at your own pace (this process is not fall proof!). ETMM encourages you to take lessons from an instructor at your local resort. Please, feel free to ask our members about their experiences.

Beginner/Intermediate/Advanced

East Tennessee Mogul Mashers choose locations that offer a variety of trails so that everyone on the trip can ski or snowboard at their own pace and at their own skill level. Trails are identified with green circles for beginners, blue squares for intermediate, and black diamonds for advanced and expert skiers and boarders. There is always a trail that is just right for you and your friends.

Interested in Racing?

ETMM has a racing team made up of skiers and snowboarders of all levels, from developmental to expert racers. The ETMM Racing Team has consistently finished as one of the top teams in the Crescent Ski Council. If you enjoy the thrill and camaraderie of competition, racing could be right for you! The Crescent Ski Council offers slalom and giant slalom races at local resorts. These races coincide with ETMM Ski Club's planned trips which include our group discounts. Watch racers in action or become one yourself! There are race camps, and even local developmental days, for those who want specific training for both slalom and giant slalom courses.
